

The PTSA is looking for a student who may be interested in maintaining the content of the Clarkstown South's PTSA newly launched website. The site is strictly used for dissemination at this time. According to the PTSA, the website is developed and hosted on WIX. Students interested should be either knowledgeable of WIX or similar site development tools OR have strong interest in gaining this skill. Since the site is established and launched, the student should have interest in improving the visual appeal of the site and be responsible for updating the site with content provided by PTSA (i.e. Event Pictures, Reflections, Membership, Online School Store or Membership Links, etc.) or original content created by students (e.g. photography or graphic arts). It is preferred that the student would commit to this for the entire school year. PTSA would be able to recognize student volunteer hours, if needed.

Students who are interested should email Ms. Yuen at elizabeth.yuen@yahoo.com.
