PROJECT
BLAST
SUMMER GAMES
2022

3 Week High School
Athletic Leadership &
CIT Program

What is Project Blast?

- Project Blast is a non-profit social learning and leadership initiative emphasizing the long-term value of building a strong personal, as well as, community foundation.
- Project Blast is designed to help students gain practical leadership experience and earn important community service hours, all while having a great time!
- Project Blast features competitive & cooperative games that help to build a greater sense of social connection while also instilling confidence & building character.
- Each participant earns up to 60 hours of community service credit, a \$75* CIT stipend, a PB Youth Leadership Certificate and a PB letter of recommendation.
- Project Blast was created by Mike Looney. Mike has taught PE & coached for more than 20 years. He holds a Masters in Education from Manhattanville.

PB Summer Games:

- Each week, athletes organize, officiate and compete in the PB Summer Games, a two-day, ten event team competition featuring the Blast Power Five: Scatter Ball, Pin Guard, Knockout, Uno Dos Tres and Looney Ball. The PB Games celebrate the spirit of creativity, competition, cooperation & community. Please don't miss this!!
- Athletes also organize & participate in a fun and much needed service and leadership project directly benefitting families / children with special needs. This year, our PB service project involves a food / toy drive for the children at St. Dominic's School, located in Blauvelt, NY.

*Play Hard.
Love Harder.*
