October 20, 2020

Dear Parents and Guardians:

Whether your child is learning remotely or coming to school for hybrid instruction, I hope that they have settled into a routine. If you would like to change the current status for your child from remote to **hybrid learning** for the **second quarter** (November 9, 2020 to January 29, 2021), please email your child's school counselor no later than this **Sunday, October 25**.

Please refer to this [previously sent letter](#) regarding details about hybrid instruction.

To find your child's school counselor, please refer to your child's schedule on the parent portal or go to [this link](#), which lists the counselors and their contact information.

As discussed at a recent Board of Education workshop (October 13), we are exploring a change in the current hybrid learning model from an A/B/C to an A/B cohort schedule. Although no decision has been made, we are considering if this model can be implemented in the second quarter.

If you are content with your child's current status, no further action is needed. After October 25, students will **not** be able to return to a hybrid schedule until the start of the **third quarter** (February 1, 2020).

Sincerely,

Harry Leonardatos, Ph.D.  
Principal, Clarkstown High School North
