Friday, June 8:
Senior Prom
Pearl River Hilton

Monday, June 11:
Last day of classes
Senior Awards 7pm

Tuesday, June 12 – June 21:
Regents and Final Exams

Wednesday, June 20:
Graduation 6:30 pm
RCC

REGENTS AND SCHOOL EXAMS
The month of May indicates the arrival of the fourth and final quarter for students. Many students are anticipating school finals and Regents exams. School finals and Regent exams make up 12 percent of a student’s grade in a course; the exam provides a real opportunity for students to improve their overall final grade.

Besides the usual extra help sessions, additional Regents review classes (Mathematics, Social Studies, Science and English) will be held after school. As soon as it is available, the Regents Review schedule will be posted on North’s web page www.ccsd.edu/north. Please encourage your son/daughter to attend either his/her teacher’s extra help or Regents Review classes.

TRANSITIONAL GLOBAL HISTORY REGENTS EXAM
This year, the Global History Regents will be administered on Tuesday, June 5 to all students taking the second year of the Global History curriculum. While mostly similar to past Global History Regents exams, this year’s exam has two major differences from previous years: 1) Students will only be tested on the second year of the Global History curriculum (unlike previous exams that covered two years of study), and 2) The number of multiple-choice questions has been reduced from 50 to 30. Like all other Regents exams, students will have three hours to complete this test.

NATIONAL HISTORY DAY
On Sunday, April 22nd, 17 North students travelled to Cooperstown for the State History Day competition. With their fellow students from South and Festa they had the pleasure of seeing much of historic Cooperstown, while enjoying the camaraderie of their peers. The competition was held at various historical landmarks throughout Cooperstown, NY. This provided the perfect opportunity for competitors from across the state to experience our state’s unique agricultural history. This is even more relevant as New York State is undergoing an agricultural Renaissance today.

The individual and group exhibits were located at the Farm Museum, which houses many historic pieces of agricultural equipment as well as livestock such as sheep, cows, and turkeys. Clarkstown High School North brought two exhibits to this venue. The first, an individual exhibit by Ailis Daly entitled Birth Control: The Powerful Little Pill, received first place for the competition. Ailis was also awarded the Robert Lion Gardiner Award for Outstanding Individual Exhibit. The second group exhibit created by Shir Nebel, Tian Sippel, Julia Wilen, Amit Itzhaki, and Angeline Castillo entitled “The Iran Hostage Crisis: Compromising for American Freedom and Iranian Justice,” received second place honors. The group website created by Elad Raymond, Joseph Vayyalumkal, Vivek Mathew, Charlie Wilen, William Bahssin, entitled Cuban Missile Crisis: Defusing the Most Dire Dilemma in History, received second place honors. In all, 11 National History Day competitors from North have moved on to Nationals, which will be held in Maryland in June.
"8 Bit Rams" Return from World Robotics Championships

The Clarkstown North robotics club returned from Detroit having won 4 matches and losing 6 in a very respectable performance at the FIRST Robotics World Championships. This marked the second consecutive year the club has advanced to World’s, and although they missed the playoff round they improved their standing in their division by three places this year and finished 2018 with a 15-13-0 record in official play. And, perhaps more importantly, the twenty-five student members on the trip had a great time while learning important skills all season long.

The 8 Bit Rams earned the berth in the World Championship competition as one of three teams in the winning alliance at the Hudson Valley regional FIRST Robotics competition a month earlier at Rockland Community College. The team advanced to the nationals in St. Louis last year by being named "Rookie Team of the Year" at the Hudson Valley regionals. This year was an even more impressive achievement, as their only path to the nationals was by winning the regional event. And that is just what they did.

Special thanks to teachers Brendan Burkhart who advises the team and was a trip chaperone, Matt Schuchman who facilitates many aspects of fundraising, planning, and trip logistics, and Patti Latin for chaperoning. And a heartfelt CONGRATULATIONS to every member of the team!
School will be closed on Monday, May 28th for Memorial Day

Classes end for the year on Monday, June 11th
Exams begin on Tuesday, June 12th

Graduation is Wednesday, June 20th at 6:30 pm
At Rockland Community College

HAVE A GREAT SUMMER AND CONGRATULATIONS TO OUR GRADUATES!
